The LTC policy problem(s)

Vicious or
virtuous circle?

Care availability and accessibility

Care quality

Care work

Equality

Sustainability

The LTC policy problem(s)

«Integration»
and
«innovation»

«Technical» models

«Best» practices

Diffusion/transfer/upscaling

Questions

What do we mean by....

... integrated care?
... care needs?
... quality of care?
... quality of care work?
... sustainability?

What are the challenges?

How do integrative practices work?

tensions
trade-offs

Institutions

Policy

Stakeholders

Resources

How can we transfer/upscale them?

Research approach

Make meanings explicit

Make tensions explicit

Make contexts explicit

Make choices explicit

Interdisciplinary social science

Comparison

Mixed methods

Knowledge co-production

1: Understanding meanings and challenges across contexts

- a** National literature;
National/regional policy documents;
- b** Interviews with stakeholders and policy makers
- c** Territorial indicators
- d** Configurations of challenges
Qualitative comparative analysis

2: Understanding integrative and innovative practices

18 ethnographic cases
across 4 clusters of key practices

Formal service reorganization

to improve access, coordination, and integration of care.

Housing and care integration

Combine housing and care solutions for better support.

Care technology and innovation

Home care and residential care

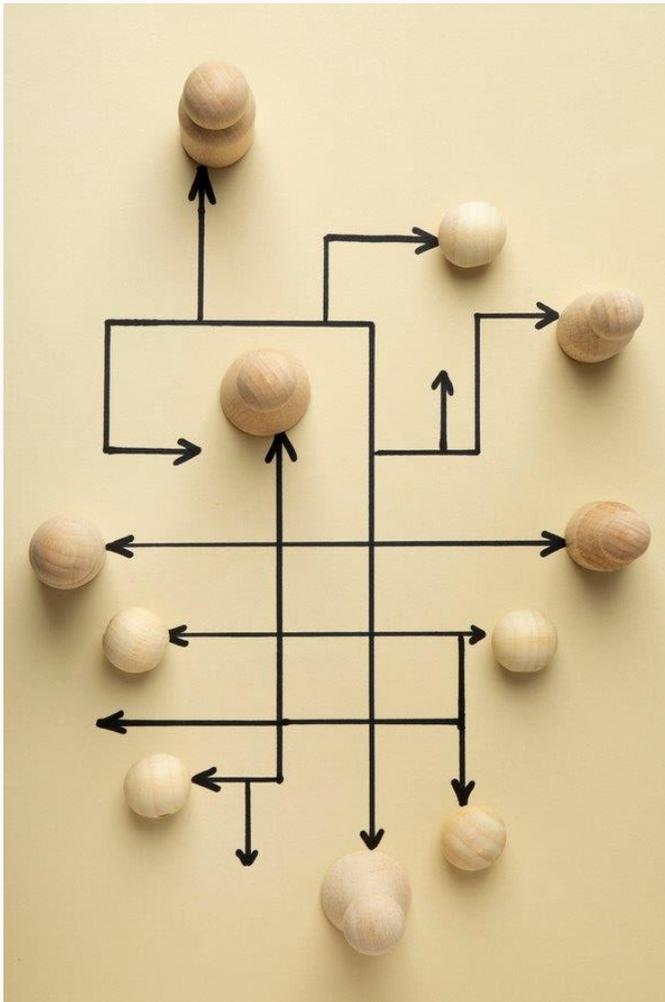

Care workers' interventions

to regularize, upskill, and professionalize care workers

3: A reflexive and policy-learning model

From best practices to meaningful practices

- a** Enabling contextualized analyses
- b** Promoting the development of contextualized interventions
- c** Toolkit for practice/policy analysis and development
